

## Blackboard named to 2022 Forbes Best Employers list

**Boca Raton, Fla. – March 1, 2022** – Blackboard, now part of [Anthology](#), was recently named as one of the best midsize companies to work for on Forbes’ Best Employers 2022 list. The award is presented by Forbes and Statista Inc., the world-leading statistics portal and industry ranking provider. Anthology and Blackboard completed a merger in October 2021.

“This recognition is a reflection of the dedication and talent of every member of our combined team and their commitment to making Anthology a great place to work,” said Denise Haselhorst, Chief People Officer at Anthology. “Today’s workplace looks very different than it did two years ago, but every day the Anthology team is coming together to help learners achieve their goals. I’m humbled to work alongside them, and I am excited about the culture we’re building.”

Anthology and Blackboard’s combined workforce now includes more than 3,600 employees around the world. These employees support 150 million users in more than 80 countries across 60 different SaaS products and services, helping to provide dynamic, data-informed experiences to the global education community.

Forbes and Statista selected America’s Best Employers through an independent survey applied to a vast sample of approximately 60,000 American employees. Across 25 industry sectors, 1,000 employers have been recognized in both the large and midsize categories. The evaluation was based on direct and indirect recommendations from employees that were asked to rate their willingness to recommend their own employers to friends and family. Employee evaluations also included other employers in their respective industries that stood out either positively or negatively.

The list was originally announced on February 9, 2022 and can be viewed on the [Forbes website](#). To learn more about working at Anthology, visit [www.anthology.com/company/careers](http://www.anthology.com/company/careers).
